Consideration of Rezoning from R1 to R3 Re: 30 40 30 SW of SE (Located around Phil Rahoi Dr.)

Stanchina presented a request to rezone the land around Phil Rahoi Drive from R-1 to R-3. He indicated that a portion of the property that would be re-zoned is currently being used as though it were zoned R-2 and the rest is mine scarred property that may or may not be eligible for building. Stanchina communicated that the re-zoning issue is separate from the issue of approving the proposed Medallion Management development. He detailed the Planning Commission's recommendation regarding the rezoning of the property around Phil Rahoi Drive. Moraska expressed the opinion that the only reason the rezoning is being considered is to accommodate Medallion Management. He relayed his disapproval of the Medallion Management project based on its negative effect on the rental market due to preferential tax rates, reduced rental inspection fees and decreased demand. Moraska also questioned the effect the development would have on the surrounding property values. Coe offered his support for the Medallion Management project. Villa questioned if 100 rental units would be optimal. Alessandrini explained the types of adaptive housing the proposed development would provide and the overall need for additional low/moderate income housing. Villa mentioned the increased traffic on Park Street.

It was moved by Moraska to table the rezoning of the property located around Phil Rahoi Drive from R-1 to R-3.
